Education

UIET Panjab University **2024–2028**
Bachelor of Engineering in Information Technology | CGPA: 9.6 *Chandigarh*

Cambridge Academy **2022–2023**
Class 12th | Percentage: 92% *Rajsamand*

Technical Skills & Qualifications

Languages: Python, C++, JavaScript, SQL
Web & Frameworks: React.js, Node.js, Express.js, Tailwind CSS, HTML, CSS, REST APIs, JWT Authentication
Databases & Tools: MongoDB, MySQL, SQLite, Git, GitHub, VS Code, Vite
Machine Learning & AI: Machine Learning, Deep Learning, NLP, NumPy, Pandas, Scikit-learn, Matplotlib, Model Training & Evaluation, Hyperparameter Tuning, Recommendation Systems

Relevant Coursework

DSA • OOPs • DBMS • OS • CN

Experience

SKBR Pvt. Ltd. [LINK] **May 2026 – june 2026**
Full-Stack Developer (Internship) *Chandigarh*

- Co-developed a real-time web application for Admin, Broker, and Miller operations with 3-role authentication, access control, and inter-role communication.
- Built billing, invoicing, and transaction record management features using REST APIs and JWT authentication.
- Designed workflows to manage godown load and prevent operational bottlenecks.
- Contributed to system design, database integration, and end-to-end development using the MERN stack.

Learning Zone [LINK] **Jan 2026 – Mar 2026**
Full-Stack Developer (Freelance) *Remote*

- Developed a web-based management system to automate tracking of student fees, dues, and payment histories.
- Designed secure authentication and role-based dashboards for admins and staff, backed by a MySQL database for profiles, payments, and attendance logs.
- Built data visualization dashboards for monthly fee reports and overdue tracking.

Projects

DevConnect – AI-Powered Career Platform [LINK] | *React.js, Node.js, Express.js, MongoDB, Gemini API* **April 2026**

- Built a unified full-stack platform with candidate profiles, a recruiter dashboard, and a job/freelance marketplace to solve the lack of personalization on job platforms.
- Integrated AI tools for automated resume generation, ATS score analysis, and skill extraction from certificates and projects.
- Improved candidate-job matching and streamlined hiring workflows with AI assistance.

WanderMate AI – Travel Planning Platform [LINK] | *React.js, Vite, Tailwind CSS, Python, Flask, SQLite* **july 2026**

- Developed an AI-powered travel platform with destination recommendations, cheapest-flight discovery, and personalized suggestions.
- Built a conversational travel chatbot for trip planning and destination assistance, with itinerary generation based on user budget, duration, and interests.
- Implemented price optimization and deal-analysis features, integrating AI-driven recommendation logic using NLP for personalized travel plans.

Co-Curricular Activities

- **Hackathon Winner – Technovate 3.0 (2026):** Won first place competing against teams to deliver an innovative technical solution under time constraints.
- **Smart India Hackathon (SIH) Participant (2024–2025):** Participated in the national-level hackathon for two consecutive years, collaborating on innovative solutions to real-world problems.
- **Member & Lead, Training and Placement Cell – UIET, Panjab University:** Coordinated placement drives and student outreach, and led a team to streamline recruitment communication and logistics.
